Rodrigo Jesus Garcia Antonio

Hilton Head Island, SC | (843) 854-8069 | jesusantonio1223123@gmail.com | https://linktr.ee/RodrigoJesusGA
First Generation Computer Science Major at the University of Carolina | SHPE Member | IEEE Chapter Member | CyberPatriot

EDUCATION

University of South Carolina | *Columbia, SC* ***Expected Graduation Date:*** **June 2029**
Bachelor of Science in Computer Science *GPA: 4.0*

SC LIFE Scholarship – *Awarded to students with a strong academic drive and a commitment to a higher education.*
Gold Finisher in CyberPatriot ASA – *Awarded to teams placing into upper 40 percent of a nationwide Cybersecurity Competition*
First-Gen Exec MCEC - *The objective of the Chair of Fundraising is to ensure funding for the First-Gen MCEC Club.*

EXPERIENCE

Lead Ethical Hacker | CyberPatriot ASA – Hilton Head Island High School **Aug 2024 – Dec 2024**

- Directed a 4-member cybersecurity team by delegating tasks, assigning specialized roles, and overseeing vulnerability testing to ensure thorough system hardening and improved team performance, while ensuring communication within.
- Completed Cisco network framework projects to model network redundancy and functionality.
- Utilized firewalls, CDM, terminals, PowerShell, Linux based OS systems, and network monitoring tools to resolve system/server issues. Implemented additional security such as stronger passwords and tighter admin control for safer system. Earned points for every task completed to level up to a new rank. Ranked to the upper 40% of teams earning gold.

IT Technician Intern | Volunteers in Medicine - Hiton Head Island, SC **Jun 2023 - Jul 2023; Jun 2024 – Jul 2024**

- Proactively analyzed and secured servers and network systems to safeguard sensitive patient data, leveraging Wireshark to capture and interpret network traffic and conducting website vulnerability assessments to enhance usability and protection. Made an employee orientation video to welcome new employees. These improvements streamlined communication channels and reduced system delays, enabling medical staff to respond to patients quickly and effectively.
- Ensured hardware and software was up to date and secured. Certified that HIPPA regulations were being followed when using any devices connected to the network, accessing patient data, and administering employees practice proper internet safety to improve safety for patients and employees. Supplied tech support when called and managed tech supplies.
- Managed and organized servers, tablets, personal computers, and printers to start operations of nurses, doctors, and upper management. Assisted in general IT support when systems malfunction with swift and accurate diagnostics with implemented solutions. Overall efficiency increases by 20%.

LEADERSHIP & ACTIVITIES

The Art of Programming | Founder & Co-President **Sep 2024 – May 2025**

- ***Games for Change*** is a yearly competition used to explore solutions to real-world problems like pollution, resource scarcity, and other problems. Winners receive a 10,000-dollar prize and nationwide recognition.
- The goal for ***Games for Change*** is to make solutions to fix this problem while using engineering as a canvas to inspire the competitors as well to teach competitors who are less experienced.
- Co-led a team of 2 developers, 2 artists, and a sound designer to design a game in C# using Unity as a game engine to compete in the ***Games for Change*** design and innovation challenge. The problem was hunger and food waste awareness.
- Used the scrum methodology to manage each member's tasks and assignments. Set up meeting times, due dates, progress reports, and managed finances on Excel. Making a game in a year.

Hilton Head Island VEX Robotics | President & Former Member **Sep 2021 - May 2025**

- Mentored 6 high school students in the basic engineering principles, helping to foster interest in STEM fields.
- Participated in ***VEX Robotics*** annual competitions, built and coded bots for a specific task every year such as making a robot that plays disc golf, scores in a goal net, or stacks rings into a pillar.
- Organized meetings and made announcements to 2 teams of 4. Inspired by the creativity of engineering.

SKILLS

Software: Microsoft Office, Google Drive, Wireshark, Windows, Python; Intermediate in Linux, CDM, Terminal, C#, Unity, Cisco Packet Tracer, Java, PowerShell, Firewall ports, and protocols.

Languages: Native and fluent in English and Spanish.
